

FlowCam[®] University

Learning at your pace

Virtual training courses for FlowCam 8000, FlowCam Cyano,
FlowCam 5000, and VisualSpreadsheet

Online Training

FlowCam University offers independent modules that allow you to learn on your own schedule and practice independently before returning to our experts with questions and assistance. Virtual training is the fastest way to go from FlowCam novice to fluent FlowCam user.

One year of free access to FlowCam University is included with every new instrument and service plan purchase.

Request FlowCam University access on our website: www.fluidimaging.com/flowcam-university

FlowCam University Benefits:

- Virtual learning on your own schedule
- Access to a library of training literature and videos available at any time
